

Creating Your Home Outside

Advertorial by Niki Paisley

Home, our sanctuary from a busy and stressful world. But this sanctuary is not limited to the interior of the house, it encompasses the exterior space around the house as well. Unfortunately in the rush of everyday life, we seldom take time to create an outdoor living space. Instead the space becomes unfinished and neglected, a space that most homeowners have no enjoyment spending time in. That is where OnGrowing Works can help.

A small landscape design and construction firm in Cochrane, OnGrowing Works believes that you can do everything outside your house that you can do inside. You can cook, eat, entertain, lounge and play but to do this you need to create your home outside. The creative focus of the design team at OnGrowing Works is to collaborate with the homeowner to create their ideal outdoor living space. Every plan is unique because every homeowner is unique and thru the design phase a clear scope of work, budget and phases are developed.

From the design stage, it becomes the challenge of the OnGrowing Works construction crew to turn the vision captured in the design into reality. The award winning, educated and experienced team will collaborate with you thru construction ensuring that the vision is created during design is captured during construction.

For any home, both inside and out, there are furnishings and quirky little accents that make it unique to you. This is where Dawn Kay, Bruce's wife and owner of Homespun Interiors comes in to help. Specializing in unique outdoor furniture and fabrics as well as outdoor area rugs, garden accessories and custom seasonal arrangements, Dawn always seems to know exactly what is needed to add the finishing touch to any space.

By creating your home outside, your home becomes a part of the natural environment and allows for a stress free, enjoyable place to escape the everyday stress of life and simply enjoy being outside.
